## INSTRUCTIONS

### Using Parapet Clamps as Tieback Devices (not allowed in Canada)

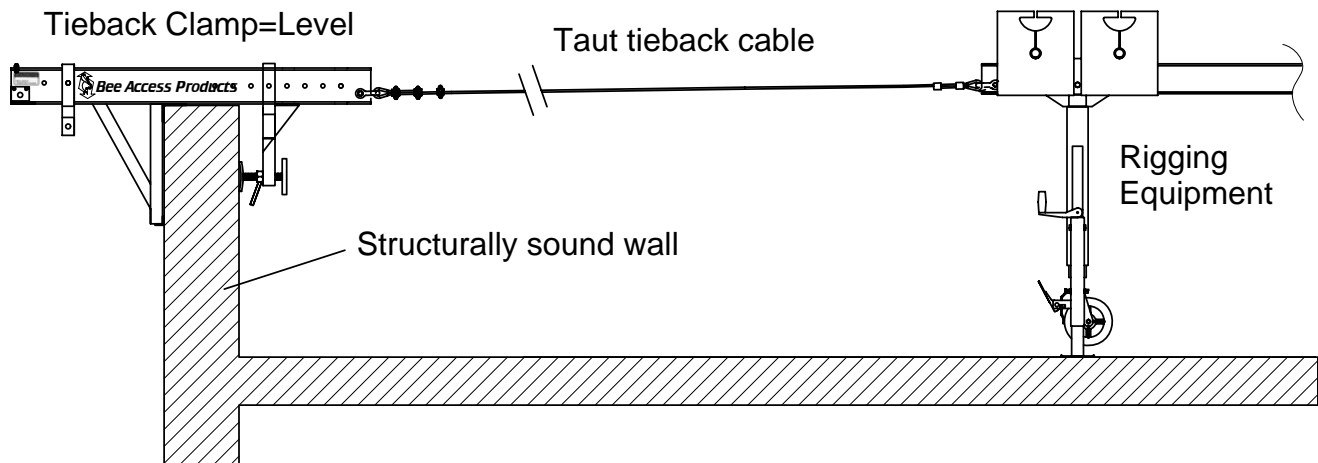

1. Tieback Clamp is mounted higher than the rigging device:  
Fasten the tieback cable to the front of the Parapet Clamp.

Tieback Clamp=Higher

2. Tieback Clamp is mounted level with the rigging device:  
Fasten the tieback cable to the rear of the Parapet Clamp.

Tieback Clamp=Level

3. Tieback Clamp is mounted lower than the rigging device:  
Fasten the tieback cable to the rear of the Parapet Clamp.

Tieback Clamp=Lower
